Porterville Veteran's Park trail Improvement Project : 2016-2017

The proposed trail is 8 feet wide. The figure on the left shows the location of bench # 6-8. The half-round symbol with a black dot across from the benches shows the location of one of the future Solar light. Poles. All benches are to be located in the lighted area.

There is no current funding for benches but benches would add to the use and utility of the park in a significant way.

Pandya Family Foundation has pledged \$ 10,000 towards trail improvement for benches at Veteran's Park. Support this mission with a tax deductible donation. Commemorate a loved one; celebrate a special occasion or show the community that you care and support our parks by sponsoring a park bench.
